PAPER HONEYCOMB

PAPER HONEYCOMB

PAPER HONEYCOMB

Thanks to the **lightness** and **strength** of its, **honeycomb** structure, paper **honeycomb** is used for the manufacturing of **hollow panels for pieces of furniture, interior doors, furniture, advertising displays, trade fair stands** and represents the core of **NIDOPAN®**, our paper honeycomb panel.

Paper honeycomb is manufactured with paper grammages ranging from 180 to 280 gr./sq. m. and with different honeycomb sizes, which vary from 8 to 30 mm and may be cut according to the customer's needs.

HONEYCOMB may be: **HOLED**, **UNEXPANDED/CONTINUOUS**, **EXPANDED**.

HOLED:
makes stream outlet easier in hot pressing.

UNEXPANDED CONTINUOUS:
for continuous panel lines.

EXPANDED:
cut to measure, dried and wrapped with heat-shrink film.

HONEYCOMB EXPANSION UNIT

We can also supply **expansion unit** for expanding **paper honeycomb** to the required measure.
